FEET metal grey

Bearing structure, arms and backs are made of pinewood, plywood and wood-panelled class E1 of different thicknesses.

The springing of the back and the seat is guaranteed by polypropylene elastic belts, fixed inside the base, completed by slabs of polyurethane foam padding crushproof (with different densities) covered with polyester wadding.

Marks, grain variations, insect bites, healed scars, wrinkles and veins prove the life of the animal, enhancing the natural look of the furniture.

Any creases of the coverings are in tolerance and are part of natural aging of the furniture, therefore cannot be considered a fault.

The sofa can be customized in size and details.
